Competition - Saturday, March 17, 2018 at Mira Loma High School

#### The Goal of the Olympiad:

Science Olympiad provides children in grades K-12 with activities designed to spark the imagination and illuminate the world of science. Student teams spend several months meeting to practice, experiment, create and study in preparation for events. Both students and teachers dedicate their efforts with the Science Olympiad to the goals of improving the quality of science education, increasing student interest in science and providing recognition for outstanding achievement in science education.

#### What is Science Olympiad?

- Science Olympiad . . . is a non-profit organization dedicated to improving the quality of science education.
- Science Olympiad . . . strives to create a passion for learning science, celebrates the outstanding achievement of students and teachers, and promotes partnerships between business, industry, government and education.
- Science Olympiad . . . brings science to life, emphasizes problem solving and teamwork, promotes high levels of achievement and excellence, and encourages students to seek out professional and technical careers in science and technology.

#### Sample Events:

- A is for Anatomy
- Barge Building
- Bridge Building
- Calculator Contest
- Can Race
- Crime Busters
- Deep Blue Sea
- Don't Bug Me
- Egg Drop
- Leaf and Tree
- Map Reading
- Metric Mastery
- Mystery Architecture
- Rock Hound
- Science Bowl
- Starry, Starry Night
- Tennis Ball Catapult
- Water Rockets

October 2, 2017

Dear Parents of \_\_\_\_\_:

We are pleased to announce fall 2017 before and after school tutoring and enrichment programs. These free tutoring and enrichment programs are designed to help students improve in the core subject areas of Math and Language Arts, with the focus of enriching the students' skill levels in those areas. Our qualified, credentialed and certificated staffs, who already know the students, are the instructors of these programs.

A **minimum of 6** students is required for each program session, with a **maximum of 15** students for every teacher conducting the program. Since there are only a few teachers available to teach these programs, space is limited. The program will be offered in six to ten week cycles and is free to all *qualified* students.

We have identified your child as someone who would benefit from participation in a tutoring and enrichment program. If you are interested in signing up your child for this wonderful opportunity, please return the bottom portion of this letter as soon as possible.

If you have any questions regarding tutoring and enrichment programs, please contact your child's teacher, the campus Dean of Students, or School Principal.

Sincerely,  
 Cherie Cooney  
 Dean of Students  
 Shingle Springs Campus

\_\_\_\_ Yes! My child, \_\_\_\_\_, has my permission to participate in the Science Olympiad program for the benefit of receiving supplemental instruction in core subject areas. While this program is offered at no charge, I understand my role is to commit to my child's successful participation for the duration of each program period, including *regular* attendance. Parent transportation and involvement will be necessary for the Saturday competition.
